Education

B.Sc. (Eng.) in Computer Science and Engineering

Comilla University | CGPA 3.30 out of 4.00

January 2020 – July 2025

Experience

C++ Competitive Programming Checker

micro1

May 2025 – July 2025

Part-time, Remote

- Analyzed and verified C++ solutions for correctness, performance, and edge-case coverage.
- Provided clear, actionable feedback to help authors improve code quality and algorithmic efficiency.
- Developed and maintained robust checker tools capable of validating multiple valid outputs per problem.

Competitive Programming Experience [🔗 All Contests](#)

CoU IT Fest Programming Contest 2024

1st

CoU_Segment_Hero(Ahmed.097823)

Premier University Programming Contest 2024

10th

CoU_BinaryDebuggers

IUT 11th National ICT Fest Contest 2024

39th

Skadooosh

Miaki Presents KUET IUPC 2025

65th

!GivingUp

ICPC Asia Dhaka Regional Contest 2024

109th

CoU_Skadooosh2.0

NCPC JU 2023

148th

Cou_SegmentHero

Codeforces: Specialist | Max Rating : 1510

Codechef: 4 Star | Max Rating : 1812

*Solved more than 2500 problems in various online judge.

Key Skills

Programming Languages:

C, C++, JavaScript, SQL, Golang

Web Frameworks:

React, Express (Node.js), Gin (Go)

API Development:

REST API, Postman, Authentication/Authorization, JWT

DevOps & Tools:

Docker, GitHub CI/CD, Git, VS Code, Linux

Familiar With:

MongoDB

Projects [🔗 All Projects](#)

Borno: A Bangla-Based Programming Language [Source Code](#)

- Developed Borno, a programming language with Bangla keywords and syntax, featuring a Go-based tree-walk interpreter with custom lexer and parser.
- Enables native Bangla speakers to learn and practice programming in their mother tongue, making coding more accessible and culturally relevant.
- Tools: **Golang, Interpreter**

SimpleOJ [Source Code](#)

- Developed SimpleOJ, an online-judge platform supporting C, C++, Java, and Python, enabling users to add and solve programming problems.
- Facilitates programming practice and assessment, aiding learners and educators in evaluating coding skills effectively.
- Tools: **Javascript, React, NodeJS, Express, MongoDB, BullQueue, Docker, Rest API**

NLSQL - Natural Language to SQL using LLM [Source Code](#)

- Developed a web app to convert natural language into SQL for PostgreSQL, MySQL using LLMs, with schema browsing, query validation, and paginated result display.
- Enables users to query databases using natural language, bridging the gap between non-technical users and complex data retrieval.
- Tools: **Golang, React, SQL, Gin, LLM, AI, Docker, Rest API**
